

SUBMARINES APPEAR IN WESTERN WATERS

Under Sea German Craft,
Which Have Been Active in
North Sea For Two Weeks,
Become Active off Ireland

WAR IS BROUGHT CLOSE TO ENGLAND IN PLACES

German Raids Into Russian
Baltic Provinces Most Inter-
esting Topic; Offensive by
Germans Expected Soon

LONDON, May 1.—German submarines, which for a couple of weeks have been confining themselves to the North Sea where they sank a number of trawlers, again made their appearance in the trade routes off the west coast of Ireland and England and caught two victims. They were British steamers, *Edin*, sunk off Scilly Islands, and the Russian steamer *Svevona*, an attack off Blacken Islands. In both cases the crews were saved.

This, taken with warning issued to American travelers on trans-Atlantic liners, doubtless means that another attempt, with a greater number of submarines, will be made to combat the blockade by England.

On the western front there is comparative quiet although the French are still on the offensive between the Meuse and Moselle rivers, the Germans claiming to have repulsed the attacks there. Consequently with the situation in the Dardanelles established interest has turned again to the eastern front, particularly to the Russian Baltic provinces which are being raided by Germans. The extent of this new raid is not disclosed.

It is just announced by English papers that the admiralty has found a means of dealing with the submarines. The people view the latest attacks on steamers with interest and are awaiting the result with considerable interest. In the face of these submarine attacks, Zeppelin raids and the bombardment of Dunkirk, which bring the war closer home, English dominions as a whole. There are some, of course, who feel anxiety over the western battle line but generally the feeling is one of optimism, based on the success with which the allies withstood the former attempts of the Germans to get through to the coast ports.

The bombardment of Dunkirk which was repeated yesterday and which resulted in a considerable loss of life, caused many women and children to leave the town. The Germans can repeat the bombardment whenever they desire with the big guns which were formerly posted on the coast to ward off attacks by the allied fleet, which has been moved up in the direction of Newport. Still there is confidence that the navy and airmen will find a means to deal with the guns.

Although the Germans announce the Russians have evacuated and burned Stawle and retired toward Mitua, there is no evidence of any big battle being fought. The Russians express confidence in their ability to deal with the German raids in the Baltic provinces.

Along the east Prussian frontier and in central Poland there has been a renewal of fighting which the spring floods interrupted, while in the Carpathians where the ground is drying the Russians and Austrians are again contending for Uzsak pass. For the moment the Russians have turned from the offensive against that pass to attack the Austrians who have threatened the communications in the direction of Stry and have, according to their report, won considerable success, capturing two heights and a number of prisoners. They also claim to have repulsed attacks by the Germans who hold the line near Wyszakow, further northward. It is expected a big offensive soon will be undertaken on the eastern front, probably by Germans who have been feeling their way toward the Russian positions around the east Prussian frontier, although it may be a feint to hide a movement elsewhere.

There is evidence in Athens dispatches that the allied fleet has recommenced the bombardment of the Dardanelles but there is no official confirmation.

SAYS TYPHUS FEVER MAY BREAK OUT HERE

Dr. John F. Anderson.

Dr. John F. Anderson, in charge of the hygiene laboratory of the U. S. public health service at Washington, has just made the startling statement that the dread typhus fever which is now ravaging Serbia is far from being eradicated in the United States and may break out at any time with virulence. Dr. Anderson has had wide experience with typhus, having studied hundreds of cases in Mexico and conducted many experiments with the inoculation of monkeys and guinea pigs.

TWO YEARS JAIL BUT NO MAN TO SERVE

"Red" Russel Jumps Bond
After Being Found Guilty;
Two Year Sentence Given;
"Two Per Cent" Decision

TOMBSTONE, May 1.—Late this afternoon Judge Lockwood announced the sentence of H. B. Russell as two years in the penitentiary and a fine of \$250. He also issued a bench warrant for Russell's apprehension. Earlier in the day his \$500 bond had been declared forfeited.

The decision in the "two percent" case, which was expected to be rendered by Judge Lockwood today, was not forthcoming and will not be rendered until Wednesday. The decision, which is a rather lengthy one, was not completed by the court reporter in time to be handed down by the judge today, but will be ready by Wednesday.

Judge Lockwood will leave in the morning, for Solomonsville, where he goes to hold a short session of court and will return on Wednesday and will hold court on that day and will then adjourn court for the term and will leave with his family shortly afterward for the coast to his new home. In the case of H. B. Russell, convicted of selling intoxicating liquors the motions for a new trial etc. were denied by Judge Lockwood and when the defendant was called for sentence it was found that he had failed to appear. He was allowed to return to Douglas after the jury had returned the verdict finding him guilty, on Thursday evening, on account of his wife being ill and he was to return this morning. When it was found that he had not returned, an order was made declaring the bond forfeited so that it is now up to J. S. Merck and L. C. McCartney of Douglas to pay to the county the sum of \$500. An order was also entered for the issuance of a bench warrant for Mr. Russell.

Telephone inquiries to Douglas show that Russell was in that city yesterday, and stated that he intended to leave there this morning for Tombstone, but the general impression there is that he took the evening train out of there and is at present in the state of Texas, on his way to his old home in Oklahoma.

In the case of the State vs. Rodgers, also charged with bootlegging, a plea of guilty was entered and a fine of \$550 entered against him. In this case the bond money was ordered confiscated to pay the fine as the defendant had failed to put in an appearance but entered a plea of guilty through his attorney.

Rodgers, it will be remembered, was caught bringing sixty gallons of whiskey from El Paso in a machine. He put up a \$250 cash bond and left for his home in Tucson and has failed since that time to put in an appearance in Cochise County.

Attorney Frank Doan was fined \$5 (Continued on page five)

STORM ABATES ALONG THE COAST

Storm Which Sank Steamer
Victoria and Threatened the
Great Northern, Is Declared
to Have Reached Its Zenith

STEAM APPARATUS IS SAID TO BE REPAIRED

Crew of the Lost Victoria Is
Picked Up by Government
Cutter West of San Diego;
Left Boat's Decks Awash

SAN FRANCISCO, May 1.—The Pacific Coast storm which sent the steamer *Victoria* to the bottom, disabled the liner *Northern Pacific*, damaged the coast passenger steamer *Harvard*, and kept scores of vessels out and little out at sea has subsided. Two big steamers, the *Pennsylvania* and *J. L. Luckenbach*, and a stream of small craft have come into port.

They said the danger point had passed. A stiff gale is blowing tonight but the safety with which the small vessels made the harbor is said by shipping men to have indicated the passage of danger. A drizzling rain over most of California and Oregon has averted the threatened damage to fruit by frost.

The *Northern Pacific*, with 150 passengers aboard, has ended its helples drifting here. The storm of Point Arena, 100 miles west of here. She sent word the stern steering gear, which was disabled, had been repaired and would be in use early tonight. She is expected to come into port under her own power tonight or early tomorrow.

The United States Coast Guard cutter *McCollough*, the *Teas*, *Defiance*, *Agulha*, the tanker *Col. E. L. Drake* went to her assistance during the day. Captain Adams of the *Northern Pacific* reported there was no danger. The *Norwegian* ship *And* is supposed to be in trouble. The *Agulha* left here Thursday in tow of the steamer *Ellis*. H. Vance, yesterday the *And* broke and the *Agulha* has been adrift. No word has come from her. The *Vance* reported late today she was 110 miles west of Point Arena and returning to port. She notified all shipping to keep a watch for the *And*.

VICTORIA CREW FOUND
SAN DIEGO, May 1.—Shortly after leaving port this afternoon, the relief boat *Flyer* picked up eleven men composing the crew of the steamship *Victoria*. The *Flyer* landed the men at quarantine station, where they reported the *Victoria* foundered off the Coronado Islands last night after they had taken to the boats. Although in an exhausted condition, none were seriously injured. The *Victoria* sank in deep water and is a total loss.

Before the *Victoria's* heroic crew took to the lifeboats, the vessel's deck house was smashed by the sea and wind; the masts and stack were blown away until only the stumps remained; while the rudder and rudder post spinning in a mass of debris on the crest of the sea. Only when the craft started with her stern first toward the bottom of the Pacific did Captain Urbachus and his crew abandon the vessel and take to the life boats.

DUVAL WEST AWAITED

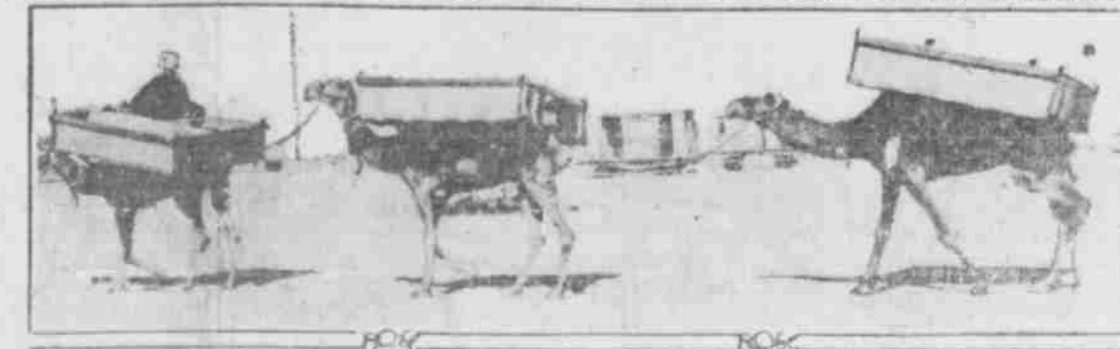

IN WASHINGTON

WASHINGTON, May 1.—Administration officials are awaiting with interest the return to Washington of Duval West, the president's personal representative to Mexico, who sailed from Vera Cruz for Havana and will reach here next week. Bryan said the State Department had received several letters from West giving inconclusive reports to his inquiries of conferences with leaders of the rival Mexican factions. These letters, however, left much to be desired in the future which West will make to the president. Advice to the State Department indicate an impending battle near Aguas Calientes between the forces of Villa and Obregon. The latter is said to be advancing from Chihuahua toward Aguas Calientes, where Villa is reorganizing his force, now reported to total 35,000.

MARRIED IN PHOENIX

PHOENIX, May 1.—A marriage license was issued here today to Elliott T. Stewart and Annie Miller. The former signs as a resident of Bisbee.

CAMEL AMBULANCE CARRIES WOUNDED SOLDIERS ACROSS DESERT

Though the motor car has largely replaced the horse, the camel, which from time immemorial has been used as a beast of burden in the East, refuses to be ousted by any new-fangled invention. In the desert it is still indispensable, and is now being used for carrying wounded in the manner shown.

Cochise Superior Court Upheld In 2 More Appeals

Two Criminal Actions, Taken
to the Supreme Court,
Affirmed; Commission Ex-
pels Loan Company

PHOENIX, May 1.—The supreme court today affirmed the decision of the Cochise county superior court in two criminal cases; one of Fred Wright who had been found guilty of larceny, and the other of Robert Thompson, sentenced to two years for murder. The corporation commission today revoked the permit, heretofore granted the Titan Loan Company, a Virginia corporation, to transact business in Arizona. The company attorney has been selling contracts under a loan plan operating extensively in Cochise county. They failed to appear today and answer under an order to show cause, heretofore issued.

BANQUET OPENS BIG 10-DAY CAMPAIGN

Y. M. C. A. Workers to Start
"\$10,000 For 1,000 Mem-
bers" Movement With Ban-
quet Monday Evening at Y

Monday is the day when the colossal effort of the Bisbee Y. M. C. A. to qualify for the \$10,000 gift of the Copper Queen Company, will be inaugurated. Having determined upon a 10-day period, in which to secure the necessary 100 members to bring the enrollment to the coveted 1,000 mark, the directors of the Association decided at their last session to hold a banquet Monday evening, at which the workers will assemble and, over an informal dinner, discuss the best means of successful and prompt attainment of the endeavor which will bring to the Y. M. C. A. the sum of \$10,000.

Captain J. P. Hodgson, who has been chosen as general chairman of the committee in charge of this notable effort, will act in the capacity of toastmaster and will keep the enthusiasm keyed to top pitch all the time. There will be remarks from the leaders in the movement and many vital suggestions will be made for practical consideration. President Philbrook of the Board of Directors will give some of his views and will tell the workers how much the movement means to the Association and to the general welfare of the men and youth of Bisbee, and the whole of the Warren District.

Secretary Richardson, whose enthusiasm has proved such a tremendous impetus to the advancement of Y. M. C. A. interest, will tell the gathering of some of the aggressive policies in which he has become well versed during his years of successful experience at Pocatello, Idaho, and other places where he has directed great movements resulting in remarkable gains in association membership.

Monday evening's banquet will be essentially a conference of the active workers. Seated at the tables will be the twenty-one captains, each with their four lieutenants, thus making a total force of 105 men who are determined to advance the work of the Y. M. C. A. in Bisbee.

Public interest is already at high pitch. The promoters of the plan recognize this fact, as attested by their decision to erect a huge clock outside the Y annex, for the purpose of keeping everybody informed as to the progress in the membership campaign. This clock will be something of an attraction in itself, with its face 27 feet in circumference, and the hands moving (Continued on page five)

FULFILLING AN OLD FRIENDSHIP VOW, SQUAW ADOPTS CHILD OF WHITE GIRL

"Princess" Wenona and foster white child.

Fulfilling an old vow of friendship made many years ago, "Princess" Wenona, a Sioux squaw who is exhibiting her wonderful rifle marksmanship on the zone at the Panama exposition, has adopted the child of Mrs. Lillian Clayton. Mrs. Clayton had known the squaw as a girl. Sick, without money and discouraged, she recently went to the exposition to find work. There she met the squaw, who proved her willingness to help the friend of many years ago by taking the child to raise while the mother went to the hospital.

NO INSTRUCTION LEAVES TO GUIDE TOLERATED IN THE HOUSE

House Refuses to Instruct Ap-
propriation Committee To
Bring In Report on Propos-
ed Land Commission Bill

PHOENIX, May 1.—The house this morning by a vote of 19 ayes, voted to lay on the table, which was in effect to kill, a motion previously made by Pinkley that the house instruct the appropriation committee to report the appropriation providing for the maintenance of the land commission, as at present constituted for the ensuing two years.

There was a little discussion although it was with difficulty that Speaker Brooks prevented the situation being used as an excuse to renew the quarrel of words between the administration members and their opponents. Later in the day the appropriation committee spent several hours discussing the question as to whether the land commission appropriation should be included in the general appropriation bill which is practically complete and seems likely to be introduced Monday. In the vote this morning Acuff, Marlar and McLean of the administration forces voted to refuse to instruct the appropriation committee.

Word was received from Vice President Marshall in which he informed the legislature that it would not be possible for him to accept the invitation heretofore extended.

The senate which awaits the receipt of the appropriation bill from the house only met to adjourn till Monday.

OLD MAN DIES

KANKAKEE, May 1.—James McKarney died here today at the age of 108.

Sebastian, With His Wife,
Leave Court Room to Make
Preparations For His Com-
ing Municipal Fight

LOS ANGELES, May 1.—With their faces wreathed in smiles this afternoon over evidence which they believed to smash the prosecution's case, Chas. Sebastian, suspended chief of police, and Mrs. Sebastian left the court room to make plans for Sebastian's mayoralty campaign.

A. B. Pratt, husband of Mrs. Lillian Pratt, the woman who is the co-defendant of Sebastian, and charged with contributing to the delinquency of her minor half sister, Edith Serkin, declared he was with his wife on the dates given by the Serkin girl when the defendants took her to the "Temperance Room" next to police headquarters. Pratt, who is a cattle buyer, produced expense account slips to support his statements.

W. R. Prather, hotel keeper at Adams Springs, produced the register of his establishment to prove that Sebastian and his wife arrived at the Springs June nineteenth, 1913, the date Miss Serkin fixed as that of her first meeting with the police chief. Pratt denied he had ever quarreled with his wife over Sebastian.

Mrs. Sebastian announced today she had placed 42 precinct captains for the election Tuesday and would complete her task Monday. She's the best campaign manager a candidate ever had," remarked Sebastian.

POPE REPORTED ILL

ROME, May 1.—According to an unofficial announcement from the Vatican, the Pope is suffering from an attack of la grippe.

JAP DEMANDS MEET WITH NEGATIVE ANSWER

Chinese Minister Hands Ja-
pan's Ambassador Answer;
In Effect It Refuses to Ac-
cede to Most Vital Demand

ULTIMATUM MAY BE SENT TO CHINA SOON

In Such Case It Is Expected
That Chinese Republic Will
Appeal to Four Powers
Who Guarantee Integrity

PEKING, May 2.—China has replied to the Japanese demands in a note which, while complying with some demands, definitely refuses to accede to others, including the most important embodied in what is known as group A. China also furnished the Japanese minister, Kato Hiroki, a list of further concessions she is willing to grant but after perusing the note and that Hiroki declared it was far from complying with the twenty-four demands as presented by his government.

This action was taken after President Yuan Shih Kai had thoroughly discussed the entire situation with the members of his cabinet and advisers since Monday. The conference terminated with neither a Japanese nor Chinese seeking to withdraw. Should the Japanese refuse to present an ultimatum or accept for the territory in China, it is estimated the Chinese will probably appeal to the four powers pledged to China's independence.

The Chinese plenipotentiaries met the Japanese plenipotentiaries by arrangement on Saturday at the foreign office and presented China's reply which in substance refuses the accepted demands of the Japanese. M. Hoki asked whether these were China's maximum concessions and those which he should cable his government. Li Cheng Hsiang, the Chinese foreign minister, replied that these were China's maximum concessions and that the Japanese minister could inform his government.

On perceiving that the Chinese reply failed to agree to the demands of the Japanese government the Japanese minister decided to return to China Tsing Tsin, which secured a withdrawal of Japan's promise was conditioned on China's defense no longer to the acceptance of Japan's demands.

The Chinese note briefly recites the history of the negotiations and it denies the Japanese charge that China has displayed procrastination and delayed the conference by disputing various points and also the charges of Chinese insincerity and untruthfulness. It further denies that China is conducting a newspaper campaign against the Japanese plenipotentiaries for presenting the latest list of twenty-four demands as a preliminary to an ultimatum.

COLON IN DESPERATE PLIGHT

COLON, May 1.—The city of Colon, half of which was destroyed by fire yesterday, presents a scene of desolation. According to police records, ten were killed and many injured. Losses are estimated at \$2,000,000. Complex numbers are homeless and bread lines have been established.

Hundreds are wandering the streets. Business is almost at a standstill, although merchants are making an effort to resume business. Hope exists however has been created by the American military authorities.

NO ACTION ON GERMAN EMBASSY ADVERTISEMENTS

WASHINGTON, May 1.—The State Department has not decided to take any action, at least as could be learned tonight, in regard to the German embassy advertisements in numerous newspapers, warning American travelers of the risk run in traveling in the war zone in merchant vessels belonging to Germany's enemies.

The attitude of the State Department is understood to be such that it may take no notice of the advertisements unless formal complaint is made. The basis of any such complaint remains to be defined as some officials admit, so far as they know, that there is no precedent to follow.
